ABOUT ME

Senior analytic engineer with remote work experience, skilled in transforming raw data into strategic insights. Ready to take on new challenges, making data clear and actionable for effective decision-making !

EXPERIENCE

ENTOBEL | Insect Farming | Vietnam
Lead Data Analyst | January 2023 - Present

- Developed an integrated data stack (Python, DBT, PBI), delivering **10+ dashboards** for **100+ users**.
- **Implemented an end-to-end data collection** system, integrating data from multiple factories into our centralized platform.
- **Earned cross-departmental trust** and accountability by delivering impactful and reliable data insights.
- **Mentored a junior analyst** by providing guidance on essential data analysis concepts, tools, and best practices

COGASTRO | Mobile application | Lithuania
Analytic Engineer (freelance) | December 2021 - December 2022

- **Implemented a DBT model** from the ground up, to ease data manipulation and readability
- **Optimized SQL queries** to enhance performance and execution time.
- Implemented unit and singular tests to validate data integrity and model accuracy **reducing DBT error by 2 folds**

BRICOPRIVE | E-commerce | France
Data Analyst | January 2019 - December 2021

- **Supported multi levels departments** with ad-hoc data and vizualisations tools (Tableau, Metabase)
- **Led monthly management reviews**, presenting key metrics and performance insights to drive informed decision-making

EDUCATION

Master of Science Supply-Chain And Lean Management
Toulouse Business School | September 2016 - December 2017

This specialized master's program, taught entirely in English, covers essential topics in supply chain management, including project management, demand forecasting, and lean management principles

Master of Agriculture – Agronomy – Feed/Food Processing
INP Purpan | September 2010 - December 2015

This institute provides a five-year program to train future engineers in agriculture and agri-food, incorporating at least 18 months of professional experience in France and abroad.
